#### Interesting to Tramps.

The Tramp Law, passed at the last session of the legislature, and one of the few good laws passed that expensive body, will go into effect on Sunday next, July 1st. It provides for the only punishment that can be inflicted upon that numerous floating and resident population known as tramps, vagabonds, and bummers, and Sheriff Perkins was on our streets that punishment is work. Under the laws. as they previously stood on the statute books, it was impossible for counties or cities to put these people to work. All POINTED, they could do was to fine them, and if they eastern affairs he could not deny himself and honor because he is good front of Frank Gunnell's store and resi- could not pay the fines, as was most often the case, they boarded the fine out in Bor A. -an arrangement that suited them exactly. But the new law changes the condition of things materially, and for the working public is concerned, and under its provisions, if carried out energetically and persistently, the specimens of the poor old tramp will become beautifully scarce in the state of Illinois.

Now let our city authorities procure number of heavy iron balls attached to 20,000 HORSE SHOERS long chains, and the first tramp found in the city after the law goes into effect, arrest him and put him to work breaking rock on the streets, cleaning up filth in the over his neck almost severing his head alleys-anything to make him work. If this thing continues that class of humanity will soon give our city the go-by.
